NFR Business Model Analysis and Clarifications

This paper summarises analysis to date of the NFR intent and business model to clarify more detailed design parameters for the jurisdictions to work within.

The analysis is based on the NFR ILM V1.0 and suggests more detailed potential business outcomes based on the issues identified in NFR workshops attended by ACT.

Reliable cross-jurisdiction compliance actioning: s 47E(d), s 47C(1)	Reliable coordination of well-defined firearms-adjacent events is necessary to ensure that removal of firearms from licencees is done promptly to reduce the threat of danger to the community and police. Triggers often arise in one jurisdiction but may have a cross-jurisdiction effect – e.g. a DVO in one jurisdiction triggering a seizure of firearms in another jurisdiction. s 47E(d), s 47C(1)
