CONFLICT OF INTEREST DECLARATION

Version Control: v.0.3 06/03/19

AFP Procurement ID ①	Provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime
Exemption from AusTender Reporting issued? ①	No

Name:

§ 22(1)(a)(ii)

Title:

~~GIS SPECIALIST~~ MR

Position:

GIS SPECIALIST

1. I have been asked to disclose any interest that I may have which would preclude me from participating in the procurement for the provision of *[insert title of project/services]*.
2. To the best of my knowledge and belief I have not had, and do not have, any relationship, either personal, financial or professional, with any potential supplier, or employee or adviser of any potential supplier, such that a potential supplier, or any employee or adviser of a potential supplier, or myself or a member of my direct family, could benefit personally in some way from the outcome of the procurement process.
3. I am aware of the AFP's requirement for strict probity in the procurement process and if I subsequently discover that there is a relationship of a kind mentioned in paragraph 2 of this Declaration with any potential supplier, I will immediately report it to the Recommending Officer and/or Delegate.
4. I will also immediately report to the Recommending Officer and/or Delegate any direct or indirect contact that I have with any potential supplier, or any employee or adviser of any potential supplier, which is not officially authorised, including any approach made to me in the way of a direct or implied offer of future employment or other benefit.

Dated the 15 day of SEPTEMBER 2019 2023

Signed:

§ 22(1)(a)(ii)

Provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime

(SON 3538332)

AFP Procurement ID ①	N/A
Exempt from AusTender Reporting ①	No
CPRs s.2.6 Applying Measures ①	Not applicable
Will this procurement involve consultancy services? ①	No this procurement does not involve consultancy services
Does this procurement require consideration of Australian Privacy Principles (APPs)? ①	No, following completion of the Privacy Checklist this procurement does not involve the collection, storage or use of personal information and/or data.

This Low Value Spending Proposal (Part A) is to:

- Specify the background, requirement/s and risks associated with the proposed procurement activity;
- Describe the procurement methodology to be undertaken; and
- Obtain [PGPA Delegate approval](#), in accordance with the [Public Governance, Performance and Accountability \(PGPA\) Act 2013](#) and the [Commonwealth Procurement Rules \(CPRs\)](#), to progress with the procurement activity to an Approach to Market (ATM) with the intent to commit and enter into a contractual arrangement with a supplier that represents Value for Money (VFM).

In stimulating Indigenous entrepreneurship and business development the procuring business area has undertaken the following:

No action taken to identify potential Indigenous suppliers

One of the AFP Geospatial team's core roles is

5 37(2Kb)

§ 37(2)(b)

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

Since Special Operation s 37(2)(b) requests for this service dramatically increased. Due to the complex nature of the data provided from these and related investigations, s 37(2)(b)

Geotime was identified as a suitable tool to s 37(2)(b)

s 37(2)(b) his program integrates with the Geospatial Team's current suite of tools and aimed to reduce time at task through efficient data analysis and increase output to s 37(2)(b)

Current Situation

Geotime software was purchased during the 2022/23 financial year through the AFP Investment plan as a tool to assist with core business for the Geospatial, Forensics and Data Science, CIO teams. AFP Contract ID 570019657 refers. This software was purchased and installed with no connectivity with public internet outside of s 47E(d) and remains in this function following a 12-month testing and implementation period. This is still ongoing with training on the systems use to be provided by local training providers to the Geospatial and Data Science teams in mid-September 2023.

During this 12-month period, it was determined the Geotime software program is highly valuable in s 37(2)(b)

Using these datasets, Geotime is used to s 37(2)(b)

This is a valuable addition to the suite of tools for s 37(2)(b) s 47E(d)

s 47E(d) Geotime incorporates this into its standard contract package as outlined in the attached quotation provided by the vendor PenLink.

Extension of this program will allow further detailed assessment for broader AFP use and integration with enterprise systems as PenLink offer an Enterprise version Geotime. This potential value would be s 37(2)(b)

s 37(2)(b) It is feasible

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

it would be complementary to existing tools, such as

s 37(2)(b)

s 37(2)(b)

s 47E(d)

Further assessment is required in partnership with CIO portfolio to realise these benefits and effort required to develop, implement and sustain these improvements. Hence, an additional 12 months to conduct this work, while also being tested with rigor in Forensics Command will provide a strong data set to evaluate its suitability for enhance AFP enterprise systems.

While researching the extension of the original contract with PenLink, it was identified by the vendor that they have an Australian based distributor of the software who can provide the maintenance required for longer time contractual period that 12 months.

SCOPE / REQUIREMENT

To allow for extended use and implementation of the Geotime software to benefit AFP operational and intelligence outcomes.

Multi-year contract to extend the maintenance of the Geotime software program,
The additional period will allow:

- effective validation of the software following training by SMEs of the Geotime software,
- Expansion of trials for to seek efficiencies with integration with AFP enterprise systems, including but not limited to s 47E(d) etc.
- Consolidation of its use for Geospatial team as a core tool for s 37(2)(b) and related data sets to improve team output.

Seeking Maintenance contracts for the Geotime software to allow for:

- Upgrades and fixes
- Ongoing improvements to data formats,
- Maps and geocoding capabilities
- Update to offline maps for use with AFP owner geocoder
- Ongoing software support

RISK ASSESSMENT

The procuring business area has completed an [Initial Risk Profile Assessment](#) to identify all operational, business and procurement-related risks.

The overall risk rating for this procurement activity to be Choose an item.

NOTE: Where the risk rating is assessed at [Medium](#) or above a separate [Risk Assessment and Treatment Plan \(RATP\)](#) must be undertaken.

METHOD OF PROCUREMENT

The procuring business area has undertaken a risk assessment and determined the most appropriate and compliant procurement method to be:

Select one:

- ☐ Whole-of-Government (WoAG) **Mandatory** arrangement – **Mandatory use**
- ☐ Whole-of-Government (WoAG) **Mandatory** arrangement – **Non-mandatory use**
- ☒ AFP/Other Agency arrangement

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

And (please select one):

- ☐ Panel approach to **all panellists** under the relevant category
- ☐ Panel approach to **selected panellists only** under the relevant category
- ☒ Panel approach to **a single panellist** under the relevant category (*VFM justification required*)
- ☐ Panel approach **the sole supplier** from an existing standing offer arrangement

Panel Title	AFP Capability Support Services Panel		
Panel SON	SON3538332	AFP or Other Agency panel?	☒ AFP ☐ Other agency
Does a fee apply to using this panel?	No fee applies to using this panel		
Category	Management Advisory Services		
Panellist/s to be approached	Criterion Solutions (ABN 39 155 469 300)		
Type of contract to be executed	Official Order / Work Order (specific to this panel)		

VALUE FOR MONEY

The procuring business area confirms this procurement will achieve VFM for the AFP as it:
(select all that apply):

- ☐ Encourages competition and is non-discriminatory
- ☒ Uses public resources in an efficient, effective, economical and ethical manner
- ☒ Facilitates accountable and transparent decision making
- ☒ Encourages appropriate engagement with risk
- ☒ Is commensurate with the scale and scope of the business requirement

Where all of the above elements to VFM cannot be met provide additional justification:

Purchase of the Geotime Software was previously through capital expenditure through the AFP Investment Plan. At this time, the agreement for this purchase was through PenLink Pty. Ltd. Based in Canada. Since the initial procurement, PenLink have approved for the above Panelist, Criterion Solutions as the sole distributor of the Geotime Software in Australia. This has been confirmed with PenLink. Therefore, to reduce the need to seek an international agreement and contract with the parent vendor, the Australian Reseller, Criterion Solutions would be the most efficient vendor to purchase the maintenance contract for the Geotime Software. This proposal is further enhanced by the fact that

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

Criterion Solutions are locally based, Fyshwick, ACT. This also removes the requirement to pay and invoice through Treasury department, saving time and effort to complete the procurement.

As there are no other local re-sellers of the Geotime software, procuring the maintenance contract for this software through local Criterion Solutions is the common sense and lowest risk approach.

They are also on the AFP Panel as noted above, showing their adherence to the standards required to be on this panel.

If the procurement is to engage external contractors, provide details of what consideration has been given to using existing AFP personnel to fill the role.

PROCUREMENT STAKEHOLDERS

In accordance with the [National Guideline on procurement and contracting](#), the following AFP business areas have been consulted (select all that apply):

- | | |
|---|--|
| ☐ AFP Legal Insert LEX ref # | ☐ DAF TA* 2022-086 |
| ☐ Security | ☐ DTA Consider First Policy Insert CONF ref # |
| ☐ National Armoury | ☐ DTA Fair Criteria Policy Insert FAIC ref # |
| ☐ Portfolio Financial Representative | ☐ Operational Safety & Security Working Group |
| ☐ National Assets Team | ☒ Other business area – Data Science, CIO |
| ☐ ICT Assets Team | |

Note: *For ICT-related procurements, a Design Authority Forum (DAF) Technology Acquisition (TA) number must be obtained by consulting with Operations Technology and Innovation (OT&I). To obtain the DAF TA number log a job in the AFP Service Portal.

In addition to the above, the following stakeholders will be involved in the progression of this procurement activity.

Stakeholder name and title	Role or responsibility in procurement activity
§ 22(1)(a)(ii) Forensic Geospatial	Goods/Services Recipient <i>The AFP official who is responsible for receiving the goods/services and can certify that they meet the contract requirements and the invoice can be paid.</i>
§ 22(1)(a)(ii) Coordinator Data Science	<i>The Goods/Services recipient must only be entered in when the shopping cart is created – NOT WHEN REGISTERING THE CONTRACT.</i>
§ 22(1)(a)(ii) Forensic Geospatial	Contract Owner <i>The AFP official accountable for outcomes enabled by the contract. Has the necessary authority to make decisions in relation to the contract and</i>

Approval to approach the market

	takes the actions required to manage the AFP obligations and optimise ongoing value for money.
s 22(1)(a)(ii) Forensic Geospatial	Contract Manager <i>The AFP official who is responsible for completing the activities and tasks required to manage the terms, conditions, outputs and AFP obligations under the contract.</i>
s 22(1)(a)(ii) Forensic Geospatial	Contract Administrator <i>The AFP official who performs the activities and tasks necessary to administer the contract, and is directed and instructed by the Contract Manager and guided by the relevant contract management plan.</i>
s 22(1)(a)(ii) Forensic Geospatial s 22(1)(a)(ii) Coordinator Data Science s 22(1)(a)(ii) Geospatial Specialist	Evaluation Committee <i>The AFP officials who will evaluate all responses (i.e. tenders or quotations) in response to the ATM against the below evaluation criteria to identify the preferred supplier that represents Value for Money (VFM).</i> • <i>Evaluation Committee Members must each complete a Conflict of Interest (CoI) Declaration.</i> • <i>The AFP Delegate must not be an Evaluation Committee member</i>

Evaluation Criteria

Criteria	Weighting
	<i>Default weighting below but may be changed to reflect requirements</i>
Solution <i>The extent to which the Potential Supplier's Response meets the AFP's Requirements as set out in the Approach to Market documents</i>	Equal Weighting
Ability to deliver	Equal Weighting

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

Document Control: 00001 10/2022 0000

The extent to which the Potential Supplier demonstrates its capability and capacity to provide the Requirements.	
Whole of Life Costs The whole of life costs to be incurred by the AFP. Evaluation will take account of the quoted price and any costs that the AFP will incur as a result of accepting the Potential Supplier's Response.	Equal Weighting

Note: This is guidance for evaluation criteria which can be changed to suit the procurement requirements.

Rating

The following rating scale will be applied when conducting the evaluation assessment/s.

Very Good (5)	The Response satisfies the evaluation criterion to a very high standard and presents minimal or no risk to the Commonwealth, and its claims are fully supported by the information provided.
Good (4)	The Response satisfies the evaluation criterion to a high standard and/or presents limited risk to the Commonwealth. The Tenderer's claims are supported by the information provided.
Satisfactory (3)	The Response satisfies the evaluation criterion to a satisfactory degree and/or presents an acceptable level of risk to the Commonwealth. There are some minor deficiencies and shortcomings in the information provided.
Poor* (2)	The Response barely satisfies the evaluation criterion and/or presents some degree of unacceptable risk to the Commonwealth. There are major deficiencies in the information provided.
Unsatisfactory* (1)	The Response does not satisfy the evaluation criterion and/or presents an unacceptable level of risk to the Commonwealth.

*A 'Poor' or 'Unsatisfactory' rating for one or more evaluation criteria will exclude the Potential Supplier from further participation in the procurement process. Responses received after the ATM closing time will not be accepted.

The outcome of the Evaluation Process – together with any recommendation for the Delegate - will be documented in the [Spending Proposal \(Part B\)](#).

Good afternoon s 22(1)(a)(ii)

I know you reached out recently about the T&C of your contract around Geotime, I just wanted to check in with how you are going with the software? There have been a lot of advancements from the manufacturer, and some more products in their catalogue. If you have some free time, it would be good to have a chat with you about what the new products can do, and where Geotime fits into their “ecosystem”, and how it might help you out.

Let me know if you want to chat, or if you would like me to send through some information about what their new features are.

Thanks, talk soon,

Initial Risk Profile Assessment

Version 1.0 (October 2022) | 1/2022

Procurement ID	n/a
Procurement Title 	Purchasing of Call Charge Record (CCR) Mapping Software Geotime

This Initial Risk Profile Assessment must be used in conjunction with the [AFP National Guideline on risk management](#).

Completing this assessment is designed to assist AFP officials in identifying the overall risk profile of their procurement activity. Where any area of risk identified is rated at *Medium* or above, a separate [Risk Assessment and Treatment \(RATP\)](#) must be completed.

For further guidance, consult the [AFP Risk and Assurance Team](#).

Enterprise Risk vs. Procurement Activity Assessment

Consider all possible business, operational and procurement risks under each risk category; then nominate whether there is potential for risk/s under each ER category. Once completed, please select the overall highest risk rating based on your initial assessment.

Enterprise Risk (ER) Category	Potential for risk/s?
ER 1 – Health, Safety and Wellbeing Illness, injury or other health conditions which decrease the wellbeing and performance of the AFP workforce	No there are no potential risk/s under this ER category
ER 2 – Culture, Standards and Integrity Systemic failure to comply with the AFP's professional standards, values, regulatory framework and statutory requirements.	No
ER 3 – Operational Outcomes Failure to achieve AFP's identified operational outcomes.	Yes
ER 4 – Partnerships and Stakeholder Engagement Failure to develop and coordinate effective relationships with domestic and international law enforcement, Government and Non-government organisations,	No
ER 5 – Effectiveness of AFP Capabilities The AFP's capabilities fail to adjust to a changing operating environment.	Yes
ER 6 – Workforce The AFP fails to attract, retain and maintain a workforce with the skills and capabilities aligned to the AFP's future organisational needs.	No

Initial Risk Profile Assessment

ER 7 – Resourcing Mismanagement or misuse of the resources the AFP needs to meet its operational objectives.	No		
ER 8 – Information Systemic failure to effectively collect, use, manage or protect information.	No		
Overall Initial Risk Profile (Rating)	Low		
Justification for rating/comments: the risk to the AFP is low. The vendor is already providing consistent and long term engagement with broader Australian Government departments. The where the risk lies is the ability to meet operational demand with growingly complex data sets. Having the appropriate tools to effectively analyse, visualize and explain these data sets will be key moving forward. The added benefit is reduction of complex data analysis and cleansing, improving throughput and reducing time-at-task, which will improve operational availability for the Geospatial team, without increasing stress on members. This is due to the perceived efficiency gains of the Geotime Software.			
Initial Risk Profile Assessment completed by

Initial Risk Profile Assessment

Version 1.0 (11 October 2022)

Risk level matrix						
LIKELIHOOD	ALMOST CERTAIN	Low	Medium	Significant	High	Critical
	LIKELY	Low	Medium	Significant	High	High
	POSSIBLE	Low	Medium	Medium	Significant	Significant
	UNLIKELY	Low	Low	Medium	Medium	Medium
	RARE	Low	Low	Low	Medium	Medium
		INSIGNIFICANT	MINOR	MODERATE	MAJOR	SEVERE
CONSEQUENCE						

Risk rating and the required action	
Rating	Description
Critical	Risk exceeds the AFP's current risk appetite and requires action. Critical risks are unacceptable and require action to reduce this rating as soon as possible. Critical risks require very timely attention. Critical risks - which cannot be mitigated - should be briefed to the relevant Deputy Commissioner.
High	Risk exceeds the AFP's current risk appetite and requires action. High risks are unacceptable and require additional action to mitigate. Appropriate actions need to be identified and implemented as soon as possible. High risks - which cannot be mitigated - should be briefed to the relevant National Manager/Assistant Commissioner.
Significant	Risk exceeds the AFP's current risk appetite and requires action. Significant risks should only be accepted following consultation and in the absence of available actions to mitigate. The decision to accept a significant level of risk should also be reviewed as part of this consultation. Manager/Commander-level ownership of significant risks is appropriate. Managers/Commanders should be mindful of the AFP's risk tolerance if considering acceptance of a significant level of risk. The effectiveness of existing controls and planned treatment strategies should be reviewed in consultation with key stakeholders. Risks above the AFP's risk appetite should be closely monitored.
AFP Risk Appetite	
Medium	Risk within the AFP's current risk appetite and requires regular review of risk levels and confirmation that controls continue to be effective. Medium risks may be acceptable in the absence of cost effective mitigations. The AFP's risk tolerance should be considered as part of a decision to accept medium level risks. Medium risks should be monitored as part of ongoing risk management to ensure the risk remains within the AFP's risk appetite.
Low	Risk within the AFP's current risk appetite and requires periodic confirmation that controls continue to be in place. Low risks are acceptable. Low risks should be reviewed periodically as part of ongoing risk management processes. Consideration may be given to increasing the risk in order to pursue an opportunity.

Op Tech Enterprise Architecture has been engaged and a Technology Acquisition (TA) number supplied **s 47E(d)** to facilitate the correct governance required for purchase of software.

THE REQUIREMENT

The Geospatial team will utilise the AFP Investment Plan funding allocation of \$28,000 for the procurement of software to **s 37(2)(b)**

The requirements of the product/software the Geospatial team is seeking are:

- Simple and easy ingestion of data for cleansing, mapping and analysis
- Ability to import and utilise AFP geospatial data holdings and exploit **s 37(2)(b)**
- Simple visualisation tools to map the ingested data
- Ability tag, highlight and identify multiple data sources and **s 37(2)(b)**
- Use analysis tools to identify **s 37(2)(b)**
- Outputs are clear and concise for court presentation,
- Ability to animate movement of devices based on the data provided
- Ability to be stored on AFP systems and integrate with **s 47E(d)**
- Can be scaled to include additional users
- Can ingest and exploit large data sets
- Can be used for training and development of AFP personnel
- Simple floating licencing model allowing for few licences to be used by many users
- Has ongoing support and maintenance options to update base maps and background information

An additional concurrent licence is to be sought utilising funds supplied by CTO for the purpose of testing the software for Enterprise AFP uses. Discussions with TI Assurance have indicated that finance will journal across the funds following the approval by the delegate. See attachment 1 which includes approval information from Coordinators **s 22(1)(a)(ii)** and **s 22(1)(a)(ii)** to assist with the approval to purchase the single licence from the **s 47E(d)** cost centre.

Has a detailed '[Statement of Requirements \(SOR\)](#)' been completed? ☐ Yes ☒ No

CONTRACT TERM AND VALUE

The below table is the maximum estimated values for the contract initial term and any applicable options.

The PGPA Delegate approval will cover the Contract Initial Term value only. Prior to executing any contract variations/extensions new PGPA Delegate approval will need to be obtained.

RISK ASSESSMENT

The procuring business area has completed an [Initial Risk Profile Assessment](#) to identify all operational, business and procurement-related risks.

The overall risk rating of this procurement activity is:	LOW
---	-----

NOTE: Where the risk rating is assessed at **Medium** or above a separate [Risk Assessment and Treatment Plan \(RATP\)](#) must be undertaken.

METHOD OF PROCUREMENT

The procuring business area has undertaken a risk assessment and determined the most appropriate and compliant procurement method to be: Limited tender seeking quotation from a single supplier

List all suppliers (with ABNs where applicable) that will be approached:

- Uncharted Software (Toronto Canada)

Insert Date

Page 4 of 10

Low Value Spending Proposal (PART A)

Approval to approach the market

VALUE FOR MONEY

The procuring business area confirms this procurement will achieve VFM for the AFP as it:
(select all that apply):

- ☐ Encourages competition and is non-discriminatory (approaching multiple suppliers)
- ☒ Uses public resources in an efficient, effective, economical and ethical manner
- ☒ Facilitates accountable and transparent decision making
- ☒ Encourages appropriate engagement with risk
- ☒ Is commensurate with the scale and scope of the business requirement

Where all of the above elements to VFM cannot be met provide additional justification:

Uncharted do not have Australian based resellers, meaning approaching multiple international suppliers would not be an efficient procurement method and would increase risk of potential sustainment issues.

PROCUREMENT STAKEHOLDERS

In accordance with the [National Guideline on procurement and contracting](#), the following AFP business areas have been consulted (select all that apply):

EVALUATION

Evaluation Criteria

The below evaluation criteria will be included in the Approach to Market (ATM) documentation, and will be used to assess responses.

Criteria	Weighting <i>(Default is equal weighting but may be changed to %)</i>
Relevant experience <i>Demonstrated relevant experience (and past performance) in delivering the same or similar goods and/or services.</i>	Equal weighting
Ability to deliver <i>Availability of required goods or services, committed available resources (including specified persons, contractors or consultants), and/or demonstrated ability to deliver within required timeframes to an acceptable quality standard.</i>	Equal weighting
Solution <i>Proposed solution is fit-for-purpose and meets the agency's requirements (without over-engineering/over-servicing). Solution considers Australian Government legislation, national and international standards, and agency-specific requirements.</i>	Equal weighting
Flexibility and innovation <i>Proposed solution incorporates innovation or may be adapted throughout the lifecycle of the goods and/or services (future-ready).</i>	Equal weighting
Sustainability	

Insert Date

Page 7 of 10

Approval to approach the market

Compliance with all Procurement Connected Policies (PCPs), consideration of all necessary whole-of-life costs (including any options and components such as freight/transport, maintenance, training, licencing, consumables, future enhancements, transition-in/out, storage, disposals or destruction), does not present an administrative burden to the agency, and is considerate of social, economic and environmental impacts	Equal weighting
---	-----------------

The following rating scale will be applied when conducting the evaluation assessment/s.

Very Good (5)	<i>The Response satisfies the evaluation criterion to a very high standard and presents minimal or no risk to the Commonwealth, and its claims are fully supported by the information provided.</i>
Good (4)	<i>The Response satisfies the evaluation criterion to a high standard and/or presents limited risk to the Commonwealth. The Tenderer's claims are supported by the information provided.</i>
Satisfactory (3)	<i>The Response satisfies the evaluation criterion to a satisfactory degree and/or presents an acceptable level of risk to the Commonwealth. There are some minor deficiencies and shortcomings in the information provided.</i>
Poor* (2)	<i>The Response barely satisfies the evaluation criterion and/or presents some degree of unacceptable risk to the Commonwealth. There are major deficiencies in the information provided.</i>
Unsatisfactory* (1)	<i>The Response does not satisfy the evaluation criterion and/or presents an unacceptable level of risk to the Commonwealth.</i>

The outcome of the Evaluation Process – together with any recommendation for the Delegate - will be documented in the [Spending Proposal \(Part B\)](#).

The Recommending Officer is responsible for ensuring all stakeholders are aware of the obligations to self-report by completing a Col Declaration.

This Low Value Spending Proposal (Part A) is to:

- Specify the background, requirement/s and risks associated with the proposed procurement activity;
- Describe the procurement methodology to be undertaken; and
- Obtain [PGPA Delegate approval](#), in accordance with the [Public Governance, Performance and Accountability \(PGPA\) Act 2013](#) and the [Commonwealth Procurement Rules \(CPRs\)](#), to progress with the procurement activity to an Approach to Market (ATM) with the intent to commit and enter into a contractual arrangement with a supplier that represents Value for Money (VFM).

In stimulating Indigenous entrepreneurship and business development the procuring business area has undertaken the following:

No action taken to identify potential Indigenous suppliers

One of the AFP Geospatial team's core roles is mapping data related to [REDACTED] s 37(2)(b)

§ 37(2)(b)

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

Since Special Operation s 47E(d) requests for this service dramatically increased. Due to the complex nature of the data provided from these and related investigations s 37(2)(b)

s 37(2)(b)

s 37(2)(b)

s 37(2)(b)

Geotime was identified as a suitable tool to s 37(1)(b)

s 37(1)(b)

Current Situation

Geotime software was purchased during the 2022/23 financial year through the AFP Investment plan as a tool to assist with core business for the Geospatial, Forensics and Data Science, CIO teams. AFP Contract ID 570019657 refers. This software was purchased and installed with no connectivity with public internet outside of s 47E(d) and remains in this function following a 12-month testing and implementation period. This is still ongoing with training on the systems use to be provided by local training providers to the Geospatial and Data Science teams in mid-September 2023.

During this 12-month period, it was determined the Geotime software program is highly valuable in s 37(2)(b)

s 37(2)(b)

Using these datasets, Geotime is used to visualise and conduct analysis on mobile phone activity. Geotime can display s 37(2)(b)

s 37(2)(b)

This is a valuable addition to the suite of tools for s 37(2)(b)

s 37(2)(b)

s 37(2)(b)

s 47E(d)

s 47E(d)

s 47E(d)

Geotime incorporates this into its standard contract package as outlined in the attached quotation provided by the vendor PenLink.

Extension of this program will allow further detailed assessment for broader AFP use and integration with enterprise systems as PenLink offer an Enterprise version Geotime. This potential value would be realised through adding Geotime to the suite of CCR visualisation tools available to AFP business areas, including those within s 37(2)(b) It is feasible

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

it would be complementary to existing tools, such as

s 37(2)(b)

s 37(2)(b)

s 37(2)(b)

Further assessment is required in partnership with CIO portfolio to realise these benefits and effort required to develop, implement and sustain these improvements. Hence, an additional 12 months to conduct this work, while also being tested with rigor in Forensics Command will provide a strong data set to evaluate its suitability for enhance AFP enterprise systems.

While researching the extension of the original contract with PenLink, it was identified by the vendor that they have an Australian based distributor of the software who can provide the maintenance required for longer time contractual period that 12 months.

SCOPE / REQUIREMENT

To allow for extended use and implementation of the Geotime software to benefit AFP operational and intelligence outcomes.

Multi-year contract to extend the maintenance of the Geotime software program,
The additional period will allow:

- effective validation of the software following training by SMEs of the Geotime software,
- Expansion of trials for to seek efficiencies with integration with AFP enterprise systems, including but not limited to s 37(2)(b) etc.
- Consolidation of its use for Geospatial team as a core tool for mapping CCR and related data sets to improve team output.

Seeking Maintenance contracts for the Geotime software to allow for:

- Upgrades and fixes
- Ongoing improvements to data formats,
- Maps and geocoding capabilities
- Update to offline maps for use with AFP owner geocoder
- Ongoing software support

RISK ASSESSMENT

The procuring business area has completed an [Initial Risk Profile Assessment](#) to identify all operational, business and procurement-related risks.

The overall risk rating for this procurement activity to be Choose an item.

NOTE: Where the risk rating is assessed at [Medium](#) or above a separate [Risk Assessment and Treatment Plan \(RATP\)](#) must be undertaken.

METHOD OF PROCUREMENT

The procuring business area has undertaken a risk assessment and determined the most appropriate and compliant procurement method to be:

Select one:

- ☐ Whole-of-Government (WoAG) **Mandatory** arrangement – **Mandatory use**
- ☐ Whole-of-Government (WoAG) **Mandatory** arrangement – **Non-mandatory use**
- ☒ AFP/Other Agency arrangement

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

And (please select one):

- ☐ Panel approach to **all panellists** under the relevant category
- ☐ Panel approach to **selected panellists only** under the relevant category
- ☒ Panel approach to **a single panellist** under the relevant category (*VFM justification required*)
- ☐ Panel approach **the sole supplier** from an existing standing offer arrangement

Panel Title	AFP Capability Support Services Panel		
Panel SON	SON3538332	AFP or Other Agency panel?	☒ AFP ☐ Other agency
Does a fee apply to using this panel?	No fee applies to using this panel		
Category	Management Advisory Services		
Panellist/s to be approached	Criterion Solutions (ABN 39 155 469 300)		
Type of contract to be executed	Official Order / Work Order (specific to this panel)		

VALUE FOR MONEY

The procuring business area confirms this procurement will achieve VFM for the AFP as it:
(select all that apply):

- ☐ Encourages competition and is non-discriminatory
- ☒ Uses public resources in an efficient, effective, economical and ethical manner
- ☒ Facilitates accountable and transparent decision making
- ☒ Encourages appropriate engagement with risk
- ☒ Is commensurate with the scale and scope of the business requirement

Where all of the above elements to VFM cannot be met provide additional justification:

Purchase of the Geotime Software was previously through capital expenditure through the AFP Investment Plan. At this time, the agreement for this purchase was through PenLink Pty. Ltd. Based in Canada. Since the initial procurement, PenLink have approved for the above Panelist, Criterion Solutions as the sole distributor of the Geotime Software in Australia. This has been confirmed with PenLink. Therefore, to reduce the need to seek an international agreement and contract with the parent vendor, the Australian Reseller, Criterion Solutions would be the most efficient vendor to purchase the maintenance contract for the Geotime Software. This proposal is further enhanced by the fact that

AFP

AUSTRALIAN FEDERAL POLICE

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

Criterion Solutions are locally based, Fyshwick, ACT. This also removes the requirement to pay and invoice through Treasury department, saving time and effort to complete the procurement.

As there are no other local re-sellers of the Geotime software, procuring the maintenance contract for this software through local Criterion Solutions is the common sense and lowest risk approach.

They are also on the AFP Panel as noted above, showing their adherence to the standards required to be on this panel.

If the procurement is to engage external contractors, provide details of what consideration has been given to using existing AFP personnel to fill the role.

PROCUREMENT STAKEHOLDERS

In accordance with the [National Guideline on procurement and contracting](#), the following AFP business areas have been consulted (select all that apply):

Low Value Spending Proposal (PART A) - Panel Arrangement

Approval to approach the market

(Document Control) - 1/09/2023 (1/09/2023)

PGPA DELEGATE APPROVAL

Procurement Title	Provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime
AFP Procurement ID	n/a
Contract Initial Value	AUD \$ 9,000 (GST inclusive)
Contract Initial Term	1 year
CAF Fee (where applicable):	Not applicable [This fee is payable in addition to the total contract value]

I, as the relevant [PGPA Delegate](#), am satisfied that:

- this procurement activity is compliant with the required Australian Government procurement policies and legislative requirements set out in the [Public Governance Performance and Accountability Act 2013](#), the [Commonwealth Procurement Rules \(CPRs\)](#), the [Commissioner's Financial Instructions](#), and the [AFP National Guideline on procurement and contracting](#).
- I hold the appropriate PGPA delegation and have sufficient funds within my area of delegation to cover any resulting commitment.
- Conflicts of Interest Declarations have been declared, documented and appropriately managed.
- this procurement activity will provide an efficient, effective, economical and ethical use of Government money

PGPA Delegate approval:

☐ **Approved** to Approach to Market (ATM)

☐ **Not approved** to Approach to Market (ATM)

Provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime (SON 3538332)

AFP Procurement ID ⁱ	Not Applicable
Exempt from AusTender Reporting ⁱ	No
Australian Privacy Principles apply?	No

PURPOSE

This Spending Proposal (Part B) is to:

- Provide opportunity to inform the PGPA Delegate of any changes that have occurred since the Spending Proposal (Part A) Approval to Approach the Market (ATM) was approved;
- Capture the findings of the evaluation process undertaken; and
- Obtain [PGPA Delegate approval](#), in accordance with the [Public Governance, Performance and Accountability \(PGPA\) Act 2013](#) and the [Commonwealth Procurement Rules \(CPRs\)](#), to commit and enter into a contractual arrangement with the recommended supplier that represents Value for Money (VFM)

This procurement activity's Spending Proposal (Part A) was approved on:	29/09/2023
Approved by PGPA Delegate:	s 22(1)(a)(ii) Acting Coordinator Forensic Operations and Engagement s 22(1)(a)(ii)

PROCUREMENT ACTIVITY CHANGES

Declare any changes or deviations that have occurred since the Spending Proposal (PART A) was approved by the PGPA Delegate. Quote was in USD. Amounts have been changed to AUD plus 10% service fee at request of CPS. Updated in the below Contract Summary Section.

Note: Only where a change has occurred and the procurement's value is \$80,000 (GST inclusive) or more does this Spending Proposal (PART B) need to be submitted to CPS for compliance review.

Evaluation outcome + approval to commit and enter

Has any changes occurred since the Spending Proposal (PART A) was approved by the PGPA Delegate?	☐ Yes ☒ No
Where you have answered 'Yes' above, select all areas where changes have occurred:	☐ Contract value ☐ Contract term ☐ Risk profile or assessment ☐ Conflict of Interest ☐ Other

Has AFP Legal been consulted in preparing the contract?	☐ Yes ☒ No	Insert LEX ref #
---	---	------------------

Provide succinct detail of what change/s have occurred, and any relevant justification/s. ⓘ

a) not applicable.

The evaluation criteria in the approved Spending Proposal (Part A) was used to assess all responses.

The below table captures all Suppliers invited to participate in this procurement activity, with evaluation scores and rankings provided for each. For Open Tender Method (RFT) list all Suppliers who provided a submission and the scores assessed for each.

Type of contract to be executed:		Digital Sourcing Contract (DTA template contract)	
AFP contract category: Refer to the Factsheet – AFP Contract Management to assist in determining the appropriate contract category		Transactional	

CPS COMPLIANCE REVIEW

3/11/2023

Page 4 of 7

Spending Proposal (PART B)

Evaluation outcome + approval to commit and enter

Important: Only required where a change has been declared and the procurement activity is valued \$80,000 (GST inclusive) or more.

CPS compliance review required?	No, as no changes have occurred since the Spending Proposal (Part A) was approved by the PGPA Delegate. (Do not complete the below box)
--	--

Central Procurement Services (CPS) has conducted a compliance review of this spending proposal against the [Commonwealth Procurement Rules \(CPRs\)](#), relevant procurement connected policies (PCPs), and the [AFP National Guideline on procurement and contracting](#).

Based on the information provided by the procuring business area CPS considers this procurement activity as:

☐ **compliant**

Where reviewed as '**compliant**' please finalise 'Recommendation' section, and progress to the Delegate.

☐ **conditionally-compliant**

Where reviewed as '**conditionally-compliant**' the non-compliance issues (listed below) should be actioned OR justification for why no action has been taken must be documented in the 'Recommendation' section. Documents reviewed as 'Conditionally-compliant' can be progressed without CPS re-review.

☐ **non-compliant**

Where reviewed as '**non-compliant**' the non-compliance issues must be actioned, and the revised iteration of this document resubmitted to CPS (for re-review).

Non-compliance issues to be address:

-

CPS advice/better practice comments:

-

Is AFP Legal consultation required: Choose an item.

OFFICIAL

Hi All,

s 22(1)(a)(ii) morning –

Confirmed:

- For the GeoTime trial, Geospatial team manually manipulated the Australian CCR files to load to GeoTime
- Geospatial Team **DO NOT** currently have access to GeoTime, so we can't discuss any detail until they get their hands on GeoTime Desktop
- Geospatial Team happy to put files through our Standardiser, and configure GeoTime Desktop with one data template to load the standardiser output **HOWEVER**
 - Geospatial Team also need to load:
s 37(2)(b)
 - So Data Science team would need to be responsive to standardise new formats when required,
 - or Geospatial team would need to fallback to manipulating the unsupported formats manually (assumed to be dependent on volume)

s 22(1)(a)(ii) recently attended a meeting with Uncharted (Europe-based vendor) on Tue 6 Sep (while sick and working from home? ☹️)
Please find attached detailed outcomes of that meeting

- s 22(1)(a)(ii) organising the next meeting on Tue 20 Sep
 - it will focus on use of the future state GeoTime Enterprise version, not the GeoTime Desktop version currently in scope
 - It would be useful to attend

Issues Raised:

- s 22(1)(a)(ii) has recently questioned in court on the Geospatial team's process to apply s 37(2)(b)
 - s 22(1)(a)(ii) received the details from s 22(1)(a)(ii) tends to raise the issue with USC
- Due to the lack of funding and time taken to get GeoTime Desktop licenses,
 - Only 2 x licenses are intended to be procured when they wanted 3 x licenses (although attached refers to 5 x licenses?)
 - Geospatial team have not sought additional funding to include the s 37(2)(b), and are not aware if it is included or not
 - Geospatial team currently use s 37(2)(b)
 - The s 37(2)(b) is legacy and not required

Proposed next steps:

- Sit in on next meeting with Uncharted
- Support speedy procurement, packaging and installation of GeoTime Desktop
- Wait

Happy to discuss,

s 22(1)(a)(ii)

Subject: RE: CCR Formats of GeoTime [SEC=OFFICIAL]

OFFICIAL

s 22(1)(a)(ii)

s 37(2)(b)

During the GeoTime trial between Forensic Geospatial and Southern Command Intel, I assume:

- Geospatial team either:
 - Configured GeoTime to load Australian CCR files (i.e. one data template per telco), or
 - Manually manipulated the Australian CCR files to a format that is compatible to load to GeoTime

I also assume that the scope of the procurement of the GeoTime Desktop licenses is set, and would like to confirm:

s 37(2)(b)

But the key point to discuss is how you'd like us to support your use of GeoTime Desktop, summarised in my perspective in this draft diagram, which I'd like to discuss –

I know you're busy – Happy to come to you to discuss in person, but understand if you'd prefer Teams –

Thanks,

s 22(1)(a)(ii)

OFFICIAL

s 22(1)(a)(ii)

How s about a compromise I believe it appropriate we have

- one or two high level software architectural diagrams that outline how the standardiser fits together ideally pointing out

s 37(2)(b)

How s about we put that together and send it to them with the suggestions you make for us to walk them through the code at their leisure when they re ready.

That way we have the high level covered with doco but don t make medium/low level doco that is never used...

Kind regards

s 22(1)(a)(ii)

offered to walk them through the code.

s 22(1)(a)(ii)

id they would review the code and reach out if they needed help.

I d recommend offering s 22(1)(a)(ii) with them through again rather than send them documents that

- We may not have
- they may not read
- or will just lead to further questions/clarifications

Not sure what they broke? Do they have write privileges on our repo?

Thanks

s 22(1)(a)(ii)

The Delegation to approve the 1 Shopping Cart in Insight using both Cost Centres s 47E(d) nd s 47E(d) is Dr. Simon Walsh.

Alternatively, I can create 2 Shopping Carts (generating 2 POs) to split the funding which will then allow me to select the appropriate Delegate for each Cost Centre or if 1.

If having 2 POs is not preferred, please request the SAP Team to make the appropriate changes in Insight, to allow for the 1 Delegate to approve over both Cost Centres.

Kind Regards,

Hi team,

This is highly confusing to me.

Can you please clarify why two this now needs to go to National Manager? The delegate for those cost centres are  s 22(1)(a)(ii)  s 47E(d) which is being covered by  s 22(1)(a)(ii) in an acting capacity and  s 22(1)(a)(ii) ( s 47E(d)) who has provided approval for  s 22(1)(a)(ii) to approve the LVSP documentation on his behalf. Therefore,  s 22(1)(a)(ii) as acting Coordinator has approved the Suppliers Terms and Conditions for this procurement.

I don't see why I need to now go up NM when the Part A and B were approved at Coordinator level.

Morning,

PenLink have provided the attached quote to purchase 3 x licenses of GeoTime Desktop.

The quote is valued at **USD 21,597.00**. This converts to **AUD 34,684.41**.

s 22(1)(a)(ii) recommend adding 10% to allow for any potential variation to change of currency. Adding 10% to the AUD value above, is **AUD 38,152.85**

If you accept the attached quote, please return a Signed LVSP Part B to **s 22(1)(a)(ii)** to progress Drafting a Contract.

Kind Regards,

Hi s 22(1)(a)(ii)

It was great meeting you all and thank you for your notes. I've made some clarifications to your notes to ensure we live up to your expectations. Please see my notes in red below.

- Geotime desktop **standalone deployment**:

s 47G(1)(a)

s 22(1)(a)(ii)

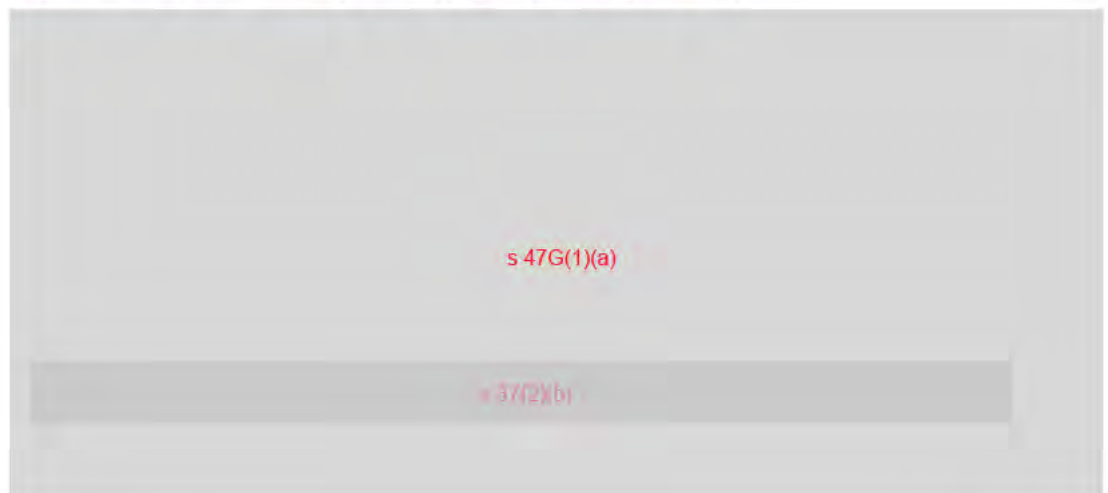

- Geotime desktop **network deployment**. (Phase one – also allows for disconnected use)

o

- Geotime Enterprise offline: (Future option for enterprise use)

s 47G(1)(a)

Action items from the meeting:

1. Uncharted to provide Geotime Enterprise (Offline) rough order of magnitude cost estimates for licences.
2. Uncharted to provide Geotime Enterprise (Offline) architecture and design documentation. Validate revised architecture diagram provided by AFP. – working on this.
3. Uncharted to provide details Geotime Enterprise of deployment in s 37(2)(b) for consideration of deploying in AFP s 37(2)(b) tenant
4. Uncharted to provide security documentation (compliance, controls, architecture etc...).
5. Uncharted to provide GeoTime Enterprise online presentation.

Best regards,

OFFICIAL

Good morning,

Please see the draft LVSP and initial risk profile assessment for the Geotime Maintenance contract.

s 22(1)(a)(ii) as you have delegation over the s 47E(d) I've put you down as a good Recipient and part of the Evaluation Committee. Can you please review the LVSP and send through any comments or recommended changes as you see fit – happy for you to change this up if you want to pass it onto another member of your team(s) if you see fit. If so, can you or whomever you choose, please fill out and return a Col form?

s 22(1)(a)(ii) given your awareness of the software, can you please fill out the attached Col form and send it back to me?

I am hoping to progress this up through my chain next week for approval and clearance through DEAL in the coming weeks.

Hi All,

Just a FYI, forensic procurements usually don't go through the deal meeting now as they are approved through our FMS system. I checked this with s 22(1)(a)(ii) at TI Assurance. That said, given additional funding (thank you OT) will this need to go through both, i.e. the FMS approval for the forensics part (due to the money from the Investment Plan) and then to the deal meeting, or will it go through just the deal meeting?

s 22(1)(a)(ii) just looping you in for awareness.

Sorry for the confusion, but this one seems a bit more complex.

OFFICIAL

s 22(1)(a)(ii) et al,

Here is the TA number for procurement of Geotime Concurrent licences. I recollect that the licences were about \$7K, there maybe funds available to additional licences. Please touch base with s 22(1)(a)(ii) for CC and I/O numbers.

Outcome:

Endorsed s 47E(d)

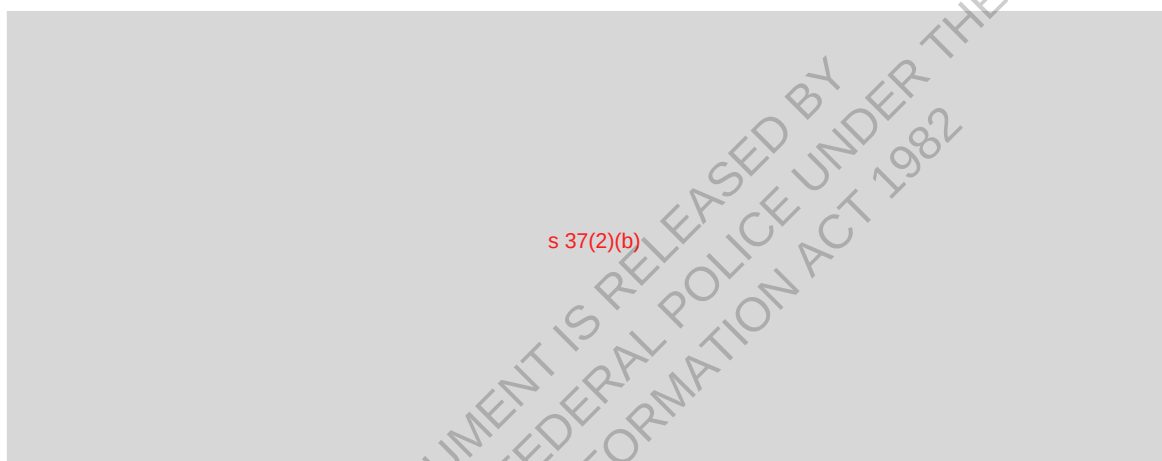

1. [GeoTime Conceptual Design](#) for Technology Acquisition permission

Presenter: s 22(1)(a)(ii)

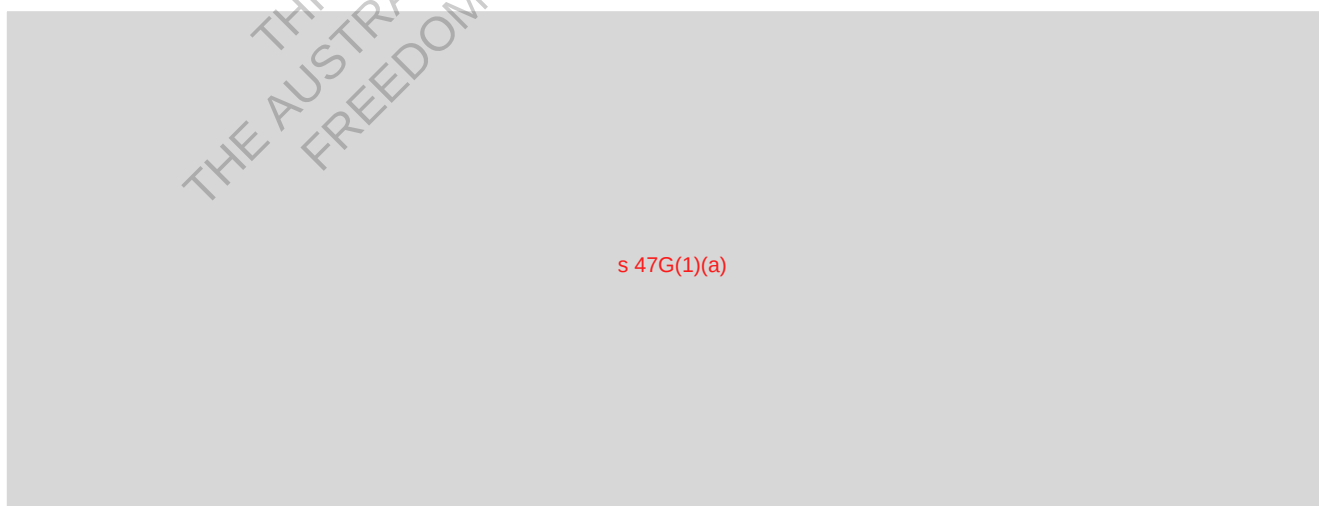

GeoTime is a visual analysis and mapping software for law enforcement, used primarily for investigative cases s 37(2)(b)

s 37(2)(b)

Analysis Features:

- Reporting/Briefing Features:

Forensics have trialled the product and determined it is highly effective in enabling both analysis but more importantly presentation of the evidence in court of complicated movement over time as shown by collected evidence. They seek to purchase desktop licences, and it is proposed that we use concurrent licences requiring a licence server to maximise value and enable wider evaluation of the capability. The design incorporate the reuse of the s 37(2)(b) to eliminate exposure of AFP interest to internet map services.

Comments:

- o Business roles and processes should show the investigator as requestor and receiver of the publication for briefing.
- o Applications to many users and uses, not just CCRs
- o What types of service expected from CTO - hosting the licence server (can be co-hosted on existing capacity) and packaging and maintaining the desktop software.

Outcome:

- o Endorsed s 47E(d)

1. I have been asked to disclose any interest that I may have which would preclude me from participating in the procurement for the provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime.
2. To the best of my knowledge and belief I have not had, and do not have, any relationship, either personal, financial or professional, with any potential supplier, or employee or adviser of any potential supplier, such that a potential supplier, or any employee or adviser of a potential supplier, or myself or a member of my direct family, could benefit personally in some way from the outcome of the procurement process.
3. I am aware of the AFP's requirement for strict probity in the procurement process and if I subsequently discover that there is a relationship of a kind mentioned in paragraph 2 of this Declaration with any potential supplier, I will immediately report it to the Recommending Officer and/or Delegate.
4. I will also immediately report to the Recommending Officer and/or Delegate any direct or indirect contact that I have with any potential supplier, or any employee or adviser of any potential supplier, which is not officially authorised, including any approach made to me in the way of a direct or implied offer of future employment or other benefit.

Hi s 22(1)(a)(ii)

Hoping you might be able to help.

Forensics and CIO share three licences for Geotime, a Call Charge Record mapping software s 22(1)(a)(ii) up the contract with 4 x 12 months extensions.

The contract is due for renewal. I have been attempting to contact s 22(1)(a)(ii) since November to confirm CIO want to maintain their licence so I can complete the Part C.

Not sure if this contract would no fall under your remit or if you can point me in the right direction while s 22(1)(a)(ii) Acting Manager?

I do need to get this moving through the relevant delegates – s 22(1)(a)(ii) on my side – fairly urgently.

Regards

Hi s 22(1)(a)(ii)

I have been looking over 2023 correspondence in relation to the Geotime contract and have seen your name, I hope I am correct in addressing this query to you.

The AFPs Geotime licences are due for renewal and if I am not mistaken the three licences are funded by Forensics (x2) and CIO (x1). This renewal was approved via an LVSP last year, which included 4 x 12 month extensions. The 24-25 quote is attached.

Can you confirm CIO wish to renew the licence? I will then go back to Criterion Solutions and ask them to separate the quotes and make some corrections (confirming AUD vs USD etc).

OFFICIAL

Good morning s 47F(1)

I am seeking a quotation from you to assist with a contract variation for the 3 x licences the AFP has for Geotime for an additional 12 months.

Also, given we already have licences, are there options for alternative pricing for maintenance of the

software across the next 12 months or is it the same price as last year? Please see attached the previous quote we obtained.

Can you please provide this with a break down across two quotations:

1. Attn: Forensics Geospatial – provision of 2 x Geotime licences
2. Attn: Data Science – provision of 1 x Geotime licence

Please reach out if you require clarification on the above or would like to discuss further.

Kind regards,

Subject: FW: AFP Geotime Contract Variation 2023-24 [SEC=OFFICIAL]

Hello s 22(1)(a)(ii)

As per the email below, please find attached the 2 x quotes as requested.

I believe that s 47F(1) may have mentioned this already, however I can confirm that Criterion Solutions is the only reseller of GeoTime into Australia. We should already be in your finance system as a vendor as well, having previously sold capability to various other areas of the AFP. And if it makes a difference, we are also on the AFP Capability Support Services Panel (SON 3538332).

Please let me know if you have any queries at all about anything contained herein.

Regards

s 47F(1)

Subject: AFP Geotime Contract Variation 2023-24 [SEC=OFFICIAL]

OFFICIAL

Good morning s 47F(1)

I am seeking a quotation from you to assist with a contract variation for the 3 x licences the AFP has for Geotime for an additional 12 months.

Also, given we already have licences, are there options for alternative pricing for maintenance of the software across the next 12 months or is it the same price as last year? Please see attached the previous quote we obtained.

Can you please provide this with a break down across two quotations:

1. Attn: Forensics Geospatial – provision of 2 x Geotime licences
2. Attn: Data Science – provision of 1 x Geotime licence

Please reach out if you require clarification on the above or would like to discuss further.

Kind regards,

s 22(1)(a)(ii)

Thank you for your recent GeoTime® Desktop concurrent maintenance renewal. Your GeoTime Desktop license and Formats Subscription was extended. You will need to take some steps to complete the update.

Your concurrent license server requires an update:

1. Updating your license involves uploading a new file into the license server. We have attached that file to this email.

Have your server administrator upload the file with the following [instructions on page](#)

2.

[17 here.](#)

REMINDER EXPIRING AFP CONTRACT IN 090 DAYS

You are receiving this email as you are registered in Insight! as the Contract Owner for the following contract:

Contract Title: CCR Mapping Software Geotime
Vendor: PenLink Canada Inc.
Contract ID: 5700019657

This contract will expire in 090 days unless action is taken.

Action options:

1. Do nothing – and the contract will expire.
2. Exercise an option – where an option is available under the contract and there is a demonstrated need for the contract to continue and in exercising the option the AFP will receive value for money (Note: you must complete the relevant [Spending Proposal\(Part C\)](#) template)

3. Prepare a new approach to market to execute a new contract – to be conducted in accordance with the [National guideline on procurement and contracting](#) (Note: you must complete the relevant [Spending Proposal \(Part A\)](#) and [Spending Proposal \(Part B\)](#) templates)

Important:

- Ensure the Shopping Cart and Purchase Order creation has been completed prior to the contract end date. Insight! does not provide Contract Administrators this functionality once a contract expires.
 - If you are no longer the Contract Owner you must update the record in Insight! and advise the new Contract Owner of the anticipated contract expiry.
 - For assistance with progressing options to extend or vary this existing contract please contact Centralised Procurement Services (CPS) at [s 22\(1\)\(a\)\(ii\) @afp.gov.au](#)
- More information, including an [overview of the AFP procurement process](#), is available on [CPS Hub Page](#).

Hi All,

Some great information below and attached from s 47F(1) at Uncharted, I have requested if it's possible to have a meeting, in the meantime it seems the best way forward based on the info below is:

- Concurrent licenses without online access
- Locally installed Enterprise version
- Consume on premises WMS and geocoding services s 37(2)(b)

It's great that they're offering Enterprise at no cost!

Standby for a meeting date.

Also, just a note that Geotime 6.4 was approved by cyber security if we used it offline, it went back into the assessment queue because of the uncertainty around the use case.

Cheers

Hi s 22(1)(a)(ii)

I've attached 3 documents that I think can be of great help: system requirements (I think I've sent that before as well) and two installation guides for the two different options. If they need something specific, they can contact me directly and I'll go fetch the information for them and you don't have to be the middleman all the time as I'm sure you have other things to do.

s 47G(1)(a)

s 47G(1)(a)

I see it like this: every investigation should start in GeoTime Enterprise where both the investigator and the analyst(s) can work together. The investigator can do a lot without the help of the analyst, saving a lot of time for analysts in answering more simple questions. You gather all data in your case of Enterprise and you get a lot of good answers there, some automatically. Once you want to dig really deep, you export specific data to Desktop and do your deep analysis there and then send it back to Enterprise for the reporting.

I would love to schedule a short presentation online with you for Enterprise but I also think we should wait until you're up and running with Desktop so we don't lose focus on that part.

By the way, how's the purchase process going, are things moving forward?

Best regards,

s 47F(1)

Hi s 22(1)(a)(ii)

Nice to meet you ahead of Monday's call. First round of answers below in red - please send more questions or clarifications to both s 47F(1) and I ahead of Monday.

Your diagram is accurate, and I added a few details:

While our products can be fully offline and many [REDACTED] use them, we also have many smaller agencies as customers who have less strict rules and prefer online versions of these related services:

[REDACTED]

[REDACTED] then I would recommend we set that up at the start and you ignore the GeoTime Offline Map Pack for most of your users. Only the folks who borrow licenses to work while disconnected from your network will need it.

The balance between utility and ease of use is different at most agencies. We can help you find the best way to optimize the setup and deployment.

[REDACTED]

1. The "Geotime Enterprise Offline Engine" performs the CDR cleansing and formatting, what is the output file format and where are the files stored?

[REDACTED]

s 47G(1)(a)

2. What audit and logging capabilities are provided out of the box for “GeoTime offline”.

s 47G(1)(a)

3. How is the activation/ lease/release of license managed in concurrent mode? Can you please go through the license borrowing and upgrade process for “GeoTime Offline.” Pages 14-15 of “GeoTime Installation Guide – Concurrent.pdf”.

s 47G(1)(a)

s 47G(1)(a)

4. How is Chain of Evidence (person/process/system) managed. From raw CDR file to visualisation/animation/report.

s 47G(1)(a)

5. Can you explain the vendor support model for GeoTime offline (who, what, when, where, how)

s 47G(1)(a)

s 47F(1)

Unfortunately s 22(1)(a)(ii) and I are unable to make the meeting proposed for tomorrow morning; s 22(1)(a)(ii) as reschedule for Tuesday 6th August @ 0900hrs.

Prior to this meeting please review the attached architecture diagram, we can discuss any amendments are required at the meeting next week. I would like to capture

Australia and AFP have strict laws and policies about data sharing and retention similar agencies in Europe; and Based on the information which you provided s 22(1)(a)(ii) (email attached) AFP are seeking an offline solution. I have created an architecture diagram to assist in further discussion for shared understanding of Geotime offline deployment. If you already have Geotime Architecture diagrams for offline deployment, happy to work with these.

We have some questions you and your team:

1. The “Geotime Enterprise Offline Engine” performs the CDR cleansing and formatting, what is the output file format and where are the files stored?
2. What audit and logging capabilities are provided out of the box for “GeoTime offline”.

3. How is the activation/ lease/release of licence managed in concurrent mode? Can you please go through the licence borrowing and upgrade process for “GeoTime Offline.” Pages 14-15 of “GeoTime Installation Guide – Concurrent.pdf”

4. How is Chain of Evidence (person/process/system) managed. From raw CDR file to visualisation/animation/report.

5. Can you explain the vendor support model for Geotime offline (who, what, when, where, how)

Hi s 22(1)(a)(ii)

It was great meeting you all and thank you for your notes. I've made some clarifications to your notes to ensure we live up to your expectations. Please see my notes in red below.

- Geotime desktop standalone deployment:

s 47G(1)(a)

s 47G(1)(a)

- Geotime desktop **network deployment**. (Phase one – also allows for disconnected use)

s 47G(1)(a)

s 37(2)(b)

- Geotime Enterprise offline: (Future option for enterprise use)

s 47G(1)(a)

s 37(2)(b)

Action items from the meeting:

1. Uncharted to provide Geotime Enterprise (Offline) rough order of magnitude cost estimates for licences.

2. Uncharted to provide Geotime Enterprise (Offline) architecture and design documentation. Validate revised architecture diagram provided by AFP. – working on this.
3. Uncharted to provide details Geotime Enterprise of deployment in s 37(2)(b) for consideration of deploying in AFP s 37(2)(b) enant
4. Uncharted to provide security documentation (compliance, controls, architecture etc...).
5. Uncharted to provide GeoTime Enterprise online presentation.

Thanks for your time this morning.

My notes from the meeting:

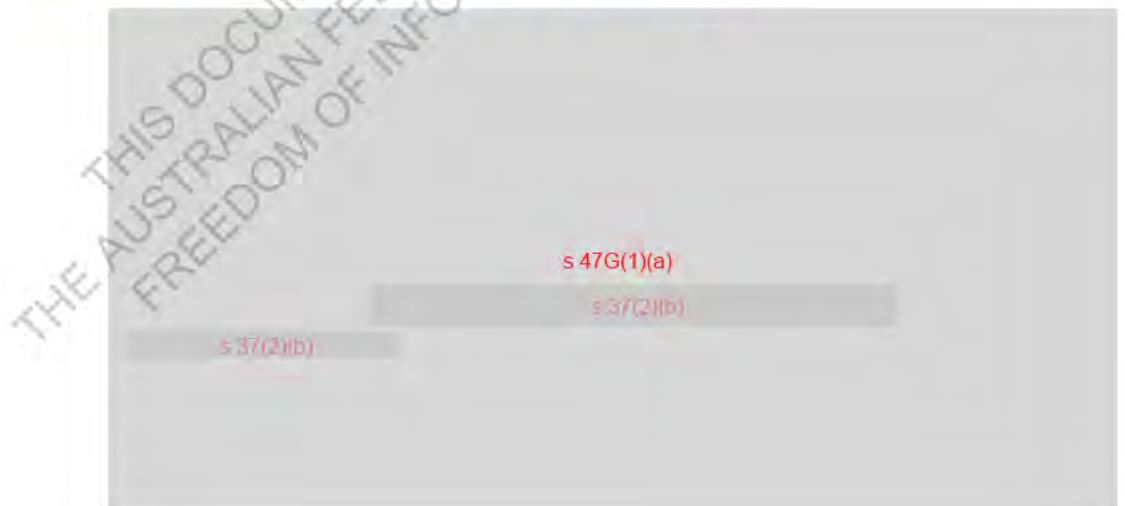

- Geotime desktop standalone deployment:

s 47G(1)(a)
s 37(2)(b)

- Geotime desktop **network deployment**. (Phase one – also allows for disconnected use)

- Geotime Enterprise offline: (Future option for enterprise use)

Action items from the meeting:

1. Uncharted to provide Geotime Enterprise (Offline) rough order of magnitude cost estimates for licences.
2. Uncharted to provide Geotime Enterprise (Offline) architecture and design documentation. Validate revised architecture diagram provided by AFP. – working on this.

3. Uncharted to provide details Geotime Enterprise of deployment in s 37(2)(b) for consideration of deploying in AFP s 37(2)(b) tenant
4. Uncharted to provide security documentation (compliance, controls, architecture etc...).

Comments and feedback welcome. I am still working on the revised architecture diagram.

Regards,

s 22(1)(a)(ii)

OFFICIAL: Sensitive**Spending Proposal (PART B)*****Evaluation outcome + approval to commit and enter****Version 1.0 (2022/01/01)***Purchasing of Call Charge Record (CCR) Mapping Software Geotime**

AFP Procurement ID ⁽ⁱ⁾	N/A
Exempt from AusTender Reporting ⁽ⁱ⁾	No
Public Interest Certificate Issued ⁽ⁱ⁾	No
CPRs s.2.6 Applying Measures ⁽ⁱ⁾	Not applicable

PURPOSE

This Spending Proposal (Part B) is to:

- Provide opportunity to inform the PGPA Delegate of any changes that have occurred since the Spending Proposal (Part A) Approval to Approach the Market (ATM) was approved;
- Capture the findings of the evaluation process undertaken; and
- Obtain [PGPA Delegate approval](#), in accordance with the [Public Governance, Performance and Accountability \(PGPA\) Act 2013](#) and the [Commonwealth Procurement Rules \(CPRs\)](#), to commit and enter into a contractual arrangement with the recommended supplier that represents Value for Money (VFM).

This procurement activity's Spending Proposal (Part A) was approved on:	7/10/2022
Approved by PGPA Delegate:	s 22(1)(a)(ii) Coordinator Forensic Operations and Engagement s 22(1)(a)(ii)

PROCUREMENT ACTIVITY CHANGES

Declare any changes or deviations that have occurred since the Spending Proposal (PART A) was approved by the PGPA Delegate.

Note: Only where a change has occurred and the procurement's value is \$80,000 (GST inclusive) or more does this Spending Proposal (PART B) need to be submitted to CPS for compliance review.

Spending Proposal (PART B)

Evaluation outcome + approval to commit and enter

Version Control: v113 13/08/2021

Respondents (Supplier name and ABN)	Relevant experience	Ability to deliver	Solution	Flexibility and innovation	Sustainability	RANK
Penlink Inc. (Formerly Uncharted)	Good (4)	Good (4)	Good (4)	Good (4)	Good (4)	Ranked 1st (Preferred respondent)
Preferred Supplier:		Penlink Inc. (formerly Uncharted)				
Evaluation Committee's comments:		Evaluation committee has reviewed the quotation and are impressed with the quote. Specifically that there are significant extra inclusions which provide additional value (Online mapping and Geocoding, ongoing improvements and data support, the format's subscription) The panel accepts this quote				
Provide a summary of the Evaluation Committee's findings including justification for ratings given, any risks or contract negotiation points, discussion against competitiveness of offering/s and whether the Committee believes any offer represents VFM.						

Has a separate detailed Evaluation Report been undertaken? No, not required as procurement activity is low value and low risk (valued under \$80,000 GST inclusive).

CONTRACT SUMMARY

The below table is the actual contract value and term/s (and any applicable options) proposed to be entered into.

s 22(1)(a)(ii) advised the below which is reflected in the initial contract value amount:

*"The quote is valued at **USD 21,597.00**. This converts to **AUD 34,684.41**.*

s 22(1)(a)(ii) *recommend adding 10% to allow for any potential variation to change of currency. Adding 10% to the AUD value above, is **AUD 38,152.85**"*

The PGPA Delegate approval will cover the Contract Initial Term value only. Prior to executing any contract variations/extensions a new PGPA Delegate approval will need to be obtained by completing a Spending Proposal (Part C).

	Contract Value	Contract Term
Initial	AUD \$ 38,152.85 (GST inclusive)	12 months
Option(s)	Not applicable	Not applicable.
Total	AUD \$ 38,152.85 (GST inclusive)	12 months

CAF Fee:	Not applicable
-----------------	----------------

CPS COMPLIANCE REVIEW

Important: Only required where a change has been declared and the procurement activity is valued \$80,000 (GST inclusive) or more.

CPS compliance review required?

No, as no changes have occurred since the Spending Proposal (Part A) was approved by the PGPA Delegate. (Do not complete the below box)

Central Procurement Services (CPS) has conducted a compliance review of this spending proposal against the [Commonwealth Procurement Rules \(CPRs\)](#), relevant procurement connected policies (PCPs), and the [AFP National Guideline on procurement and contracting](#).

Based on the information provided by the procuring business area CPS considers this procurement activity as:

☐ **compliant**

Where reviewed as '**compliant**' please finalise 'Recommendation' section, and progress to the Delegate.

☐ **conditionally-compliant**

Where reviewed as '**conditionally-compliant**' the non-compliance issues (listed below) should be actioned OR justification for why no action has been taken must be documented in the 'Recommendation' section. Documents reviewed as 'Conditionally-compliant' can be progressed without CPS re-review.

☐ **non-compliant**

Where reviewed as '**non-compliant**' the non-compliance issues must be actioned, and the revised iteration of this document resubmitted to CPS (for re-review).

Non-compliance issues to be address:

RECOMMENDATION

I, as the Recommending Officer, confirm that this procurement activity has been conducted in accordance with the [CPRs](#) and the [AFP National Guideline on procurement and contracting](#); and confirm that the proposed contractual arrangement detailed above will provide value for money.

Recommending Officer's comments:

While the quotation was provided from a sole supplier, this arrangement provides value for money and lowest risk as it is with a company with a known history of engagement with Australian Government as a supplier of the GeoTime software. As this is a single year contract, the market will be reassessed as the conclusion of the 12 month contract term for provision of the software in 2023.

Initial Risk Profile Assessment

Version Control: V. 2.0-30/10/20

Procurement ID	n/a
Procurement Title 	Provision of maintenance contract for Call Charge Record (CCR) Mapping Software Geotime

This Initial Risk Profile Assessment must be used in conjunction with the [AFP National Guideline on risk management](#).

Completing this assessment is designed to assist AFP officials in identifying the overall risk profile of their procurement activity. Where any area of risk identified is rated at **Medium** or above, a separate [Risk Assessment and Treatment \(RATP\)](#) must be completed.

For further guidance, consult the [AFP Risk and Assurance Team](#).

Enterprise Risk vs. Procurement Activity Assessment

Enterprise Risk (ER) Category	Potential for risk/s?
ER 1 – Health, Safety and Wellbeing Illness, injury or other health conditions which decrease the wellbeing and performance of the AFP workforce	No there are no potential risk/s under this ER category
ER 2 – Culture, Standards and Integrity Systemic failure to comply with the AFP's professional standards, values, regulatory framework and statutory requirements.	No
ER 3 – Operational Outcomes Failure to achieve AFP's identified operational outcomes.	Yes
ER 4 – Partnerships and Stakeholder Engagement Failure to develop and coordinate effective relationships with domestic and international law enforcement, Government and Non-government organisations,	No
ER 5 – Effectiveness of AFP Capabilities The AFP's capabilities fail to adjust to a changing operating environment.	Yes
ER 6 – Workforce The AFP fails to attract, retain and maintain a workforce with the skills and capabilities aligned to the AFP's future organisational needs.	No
ER 7 – Resourcing	No

AFP
AUSTRALIAN FEDERAL POLICE

Initial Risk Profile Assessment

Version Control: v.2.0 30/10/20

Mismanagement or misuse of the resources the AFP needs to meet its operational objectives.		
ER 8 – Information Systemic failure to effectively collect, use, manage or protect information.		Yes
Overall Initial Risk Profile (Rating)		Low
Justification for rating/comments: The procurement of the primary licenses for this software (Geotime) has been completed already. This procurement is for maintenance through a local supplier, which was not available during the initial procurement. Given the local nature and that the company suggested is on the AFP approved panel, there is low risk to the success of this procurement. If this procurement does not progress, the investment and efficiency of the software will be limited and pose a risk to team efficiency to use and manage data as needed by the team. Without maintenance contracts to supply background data and maps, it will limit the accuracy of the software, reducing the value that the software will have to impact operational outcomes, s 47E(d) The above is why ER 3, 5 and 8 were identified as a potential, albeit low, risk rating.		
Initial Risk Profile Assessment completed by		
Full Name:	s 22(1)(a)(ii)	
Title:	Team Leader Geospatial	
AFP ID:	s 22(1)(a)(ii)	Date completed: 1/09/2023

AFP
AUSTRALIAN FEDERAL POLICE

Initial Risk Profile Assessment

Version 1.0 (2020) 1.0 (2020) 1.0 (2020)

Risk level matrix						
LIKELIHOOD	ALMOST CERTAIN	Low	Medium	Significant	High	Critical
	LIKELY	Low	Medium	Significant	High	High
	POSSIBLE	Low	Medium	Medium	Significant	Significant
	UNLIKELY	Low	Low	Medium	Medium	Medium
	RARE	Low	Low	Low	Medium	Medium
		INSIGNIFICANT	MINOR	MODERATE	MAJOR	SEVERE
CONSEQUENCE						

Risk rating and the required action	
Rating	Description
Critical	Risk exceeds the AFP's current risk appetite and requires action. Critical risks are unacceptable and require action to reduce this rating as soon as possible. Critical risks require very timely attention. Critical risks - which cannot be mitigated - should be briefed to the relevant Deputy Commissioner.
High	Risk exceeds the AFP's current risk appetite and requires action. High risks are unacceptable and require additional action to mitigate. Appropriate actions need to be identified and implemented as soon as possible. High risks - which cannot be mitigated - should be briefed to the relevant National Manager/Assistant Commissioner.
Significant	Risk exceeds the AFP's current risk appetite and requires action. Significant risks should only be accepted following consultation and in the absence of available actions to mitigate. The decision to accept a significant level of risk should also be reviewed as part of this consultation. Manager/Commander-level ownership of significant risks is appropriate. Managers/Commanders should be mindful of the AFP's risk tolerance if considering acceptance of a significant level of risk. The effectiveness of existing controls and planned treatment strategies should be reviewed in consultation with key stakeholders. Risks above the AFP's risk appetite should be closely monitored.
AFP Risk Appetite	
Medium	Risk within the AFP's current risk appetite and requires regular review of risk levels and confirmation that controls continue to be effective. Medium risks may be acceptable in the absence of cost effective mitigations. The AFP's risk tolerance should be considered as part of a decision to accept medium level risks. Medium risks should be monitored as part of ongoing risk management to ensure the risk remains within the AFP's risk appetite.
Low	Risk within the AFP's current risk appetite and requires periodic confirmation that controls continue to be in place. Low risks are acceptable. Low risks should be reviewed periodically as part of ongoing risk management processes. Consideration may be given to increasing the risk in order to pursue an opportunity.

GEOTIME SOFTWARE PROCUREMENT

2021-22 CAPEX (Preferred Option)	\$28,000	2021-22 OPEX (Preferred Option)	
Enterprise Risks¹ this addresses See Summary Enterprise Risks	E3 Operational Outcomes E5 Effectiveness of AFP capabilities E8 Information	Choose an item. Choose an item. Choose an item.	Choose an item. Choose an item.
Is this funded by an NPP or POCA?	No	<If yes, please provide the external budget NPP name this is funded by.>	

2. Recap from 1st Pass

Summary - Project Objective, Background, Key Drivers

The AFP has an immediate need for the ability to process and visualise call charge records data (CCR).

s 37(2)(b)

in its native tabular format. Geotime software has been developed to focus solely on importing, processing and visualising CCR data. Some of its features includ

s 37(2)(b)

s 37(2)(b)

¹ Enterprise risks means those risks which could prevent or severely disrupt achievement of the AFP's overall objectives and desired outcomes, or bring into question the AFP's ability to do so. Enterprise risks are typically enterprise-level risks or function/program risks of such significance to warrant attention and oversight by the senior executive.

s 37(2)(b) It is recommended to purchase Geotime software to assist investigations.

3. Summary of Scope, Deliverables and Approach

The funding will cover the purchase of three desktop GEOTIME licenses, which will significantly boost the AFP's capacity to exploit CCR data. On approval of the funding AFP will approach Uncharted directly as they are the custodians of GEOTIME software.

The project scope comprises two key streams of work being:

1. Software purchase – which is the approval of funding and the approach to Uncharted to purchase the software.
2. Integration into AFP's Software Operating Environment (SOE) – this body of work involves a security assessment from the Cyber Security team. Once approved, the software will be packaged and integrated onto *s 47E(d)* by the SOE team.

High level project schedule/ key milestones for delivery:

Stage/activity/milestone	Outcome	Start date	End date
Funding approval	Receive funding for the purchase of 3x licenses	1/07/2021	12/07/2021
Cyber Security assessment	Approval for installation on	13/7/2021	13/8/2021
SOE installation	<i>s 47E(d)</i> installation	14/6/2021	28/6/2021

4. Summary of options and their benefits

GEOTIME software will enable efficient support to AFP operational areas, such as *s 37(2)(b)* and many others. Currently, industry standard geographic information system (GIS) mapping software is used by the Geospatial team to visualise and perform analysis on CCR data. This method has been beneficial, however, the process is improvised, cumbersome and time consuming. GEOTIME will add value by streamlining the current process, its key benefits are as follows:

s 37(2)(b)

s 37(2)(b)

Please describe your approach to reviewing options available to deliver your proposal in a cost effective way. What have you considered, and what options have you eliminated (and why)?

The alternative option is to continue with using the industry standard GIS mapping tools which have been developed to analyse a vast array of data types and scenarios. GEOTIME has been specifically designed to process

s 37(2)(b) It's currently being used by

s 37(2)(b)

ubsequently, the preferred option is Option 1 which is to proceed with the purchase of GEOTIME.

GEOTIME SOFTWARE PROCUREMENT

Summary

Project Lead	s 22(1)(a)(ii)	AC/NM Sponsor	<i>Dr Simon Walsh</i>
Business Area	<i>FORINT & Geospatial</i>	Steering Committee	Specialist Capability
Program Timeframe:	Less than 6 months	Capabilities	Digital Exploitation
ESTIMATED FUNDS (NET of identified savings):	\$28000	Is this an in-flight/continuing project?	☐ Yes - Continuing ☒ No - New <i>If yes – please also complete Attachment B.</i>
Ongoing ASL impact	NIL FTE	Commands that will benefit:	<i>Northern , Eastern, Southern, Western Commands.</i>
Participating external Agencies?	<i>NIL</i>		

Project Pitch (Problem/Opportunity Statement):

THIS DOCUMENT IS RELEASED BY THE AUSTRALIAN FEDERAL POLICE UNDER THE FREEDOM OF INFORMATION ACT 1982

s 37(2)(b)

Key information:

Benefits:	s 37(2)(b)
Timeframe to realise benefits (yrs) from this Investment	<i>5 years</i>

**AFP**

AUSTRALIAN FEDERAL POLICE

**OFFICIAL
INVESTMENT CONCEPT BID**

(Funding starting 2021-22)

(e.g. what is the anticipated "useful life" of this investment once delivered)	Anticipated benefits will be immediate following receipt of the assets. The useful life will be a minimum of 5 years
Is this a replacement of existing assets? If not, are there expiring assets which you will no longer replace (\$)? (the AFP has DCB funding to support replacement of existing assets)	<i>This is a new purchase not a replacement for any existing products.</i>

Alignment to AFP Commissioner's Priorities

Does this concept align with AFP's Strategic Objective and/or Commissioner's priorities?
Reduces Red Tape: Strong Alignment Supporting the Front Line: Strong Alignment Enhances Partnership: Strong Alignment
Partnerships: What existing solutions do our partners have that might assist? Can we collaborate to build capability? s 37(2)(b) have invested in Geotime software and have gained efficiencies in CCR analysis and visualisation. Geotime software is desktop software only, the licensing arrangements do not allow AFP to leverage off the s 37(2)(b) ontract. How does this concept impact key stakeholders? (i.e. changes to Organisation, Process, Information or Technology) The Geospatial team receive requests on a regular basis from various AFP operational/frontline areas to process and analyse CCR data. The ability to visualise CCRs provide s 37(2)(b) s 37(2)(b) This software will drastically increase the efficiency in processing and visualising this important dataset. Failure to acquire this capability for the AFP will lead to the s 37(2)(b) s 37(2)(b)

Financial Summary:

Project Cost:	\$28,000
Project Benefit:	Efficiencies cannot be quantified (refer to non-cash benefits)
NET Cost Estimate	(\$28,000)

For Ongoing Projects:

Existing Capital Investment (prior years): NA
(refer to Attachment B)

<i>Multi-year view (optional)</i>	2021-22	2022-23	2023-24	Ongoing. P.a	Total
Project CAPEX	\$28,000				\$28000
Project OPEX		\$9000	\$9000		\$18000
BAU/Sustainment (OPEX)					

AFP

AUSTRALIAN FEDERAL POLICE

OFFICIAL INVESTMENT CONCEPT BID

(Funding starting 2021-22)

Savings/offsets					
NET Estimate	\$28,000	\$9000	\$9000		\$46,000

Sustainment (BAU)

What is your sustainment/ongoing BAU funding strategy; would it be funded by the Command into the future after its development?

Funding would continue to come from CFOE function due to primary use by Geospatial and Forensic Intelligence teams.

Non-cash benefits and/or Benefits Lost:

Measurable improvements resulting from this investment which contributes to one or more of the AFP's objectives. For example – efficiency measured in a saving due to faster procurement processes as a result of new procure to pay system.

Highlight existing benefits which would be lost if the AFP does not invest in this proposal.

This software will assist the AFP Geospatial and Forensic Intelligence teams in providing better support to operations through enhanced s 37(2)(b) The functionality provided by this software can allow the s 37(2)(b)

s 37(2)(b) It will assist in cutting red tape through the simplified analysis of CCR data, support the frontline through operational support to investigations, as well as enhance partnerships through the provision of enhanced capabilities.

Major Known Risks

Highlight key risks or impact type – see Risk Matrix e.g. WHS, System vulnerabilities, operational risks, reputation etc.

The following risks have been identified if Geotime software is not purchased:

-
-
-
-

Hi s 22(1)(a)(ii)

Noting in the LVSP Part A and Part B, the Type of Contract to be executed is a "Suppliers Quotation", can you please provide confirmation of the AFP's acceptance to form an agreement and show that the Delegate is prepared to accept the Suppliers Terms and Conditions.

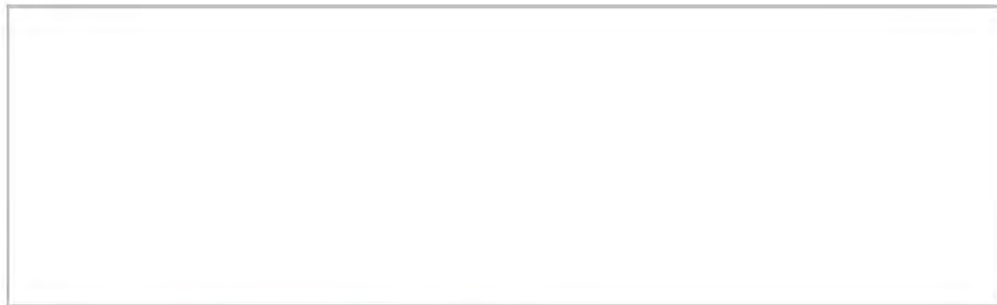

This can be in the form of a signed quote or email correspondence/acceptance.

Kind Regards,

Morning,

PenLink have provided the attached quote to purchase 3 x licenses of GeoTime Desktop.

The quote is valued at **USD 21,597.00**. This converts to **AUD 34,684.41**.

s 22(1)(a)(ii) recommend adding 10% to allow for any potential variation to change of currency. Adding 10% to the AUD value above, is **AUD 38,152.85**

If you accept the attached quote, please return a Signed LVSP Part B to s 22(1)(a)(ii) to progress Drafting a Contract.

Kind Regards,

OFFICIAL

Good morning s 47F(1)

I am seeking a quotation from you to assist with a contract variation for the 3 x licences the AFP has for Geotime for an additional 12 months.

Also, given we already have licences, are there options for alternative pricing for maintenance of the software across the next 12 months or is it the same price as last year? Please see attached the previous quote we obtained.

Can you please provide this with a break down across two quotations:

1. Attn: Forensics Geospatial – provision of 2 x Geotime licences
2. Attn: Data Science – provision of 1 x Geotime licence

Please reach out if you require clarification on the above or would like to discuss further.

Kind regards,

OFFICIAL

GeoTime is a visual analysis and mapping software for law enforcement, used primarily for

s 37(2)(b)

Intent and conceptual design options.

AFP
AUSTRALIAN FEDERAL POLICE

Overview of intent and in-scope processes

AFP is seeking to establish an initial capability for analysis and reporting of complicated time and space data in a form understandable in court.

Precursor step

Analysis

- **See better in 3D**

GeoTime's 3D timeline shows the stories hidden by traditional mapping and GIS tools

- **Chart Analysis**

s 37(2)(b)

- **Automated Analysis Tools**

s 37(2)(b)

Reporting

- **One-Click Report Publishing**

Outputs visuals as PowerPoint, animated videos & images; high-impact courtroom presentations

- **Animated Videos**

Present target movement over time by sharing animated videos with investigators, analysts and courtroom presenters

Annotating & Map Graphics

- Mark up maps with notes and annotations to help tell your story

In-scope
process
steps

s 37(2)(b)

Downstream
processes

Acquiring the Geotime Desktop initially for use by the Forensics Geospatial team for forensic evidence presentation and for evaluation by the Data Science team will uplift evidence presentation while the value of an enterprise capability is evaluated.

OFFICIAL

What are the key problems this addresses?

Intent (outcomes) map

This simplified outcomes map separates out the strategic goals, the program/project outcomes and the enabling outcomes. Strategic goals keep us aligned to the Commissioner's priorities. The Program/project outcomes are what we expect to measure success by. The Enabling outcomes are how we can get there, and enable measurement of progress. They also clarify the value of initiatives – for example improved collection enables one program outcome, but more efficient assessment enables two program outcomes.

Strategic
Outcomes

s 37(2)(b)

Business and systems models of solution options

The following pages provide business and system models to describe options for delivery of the outcomes. They use a standard set of object types to capture:

- Business roles played by people or organisations, who perform business processes
- Business processes, which may flow to other processes
- Applications which are used to support business processes through automation
- Software products which are configured or built and then deployed as an application for a business process

Business process and conceptual systems

For Evaluation, Geotime Desktop was packaged for single user deployment on s 47E(d) via the Software Centre.

For production use with concurrent licencing a licence server will required.

The use of concurrent licencing is more cost effect and flexible while allowing scale up for additional users.

Access to Geotime Desktop will be controlled by an Active Directory software group

OFFICIAL

Geotime Deployment Options

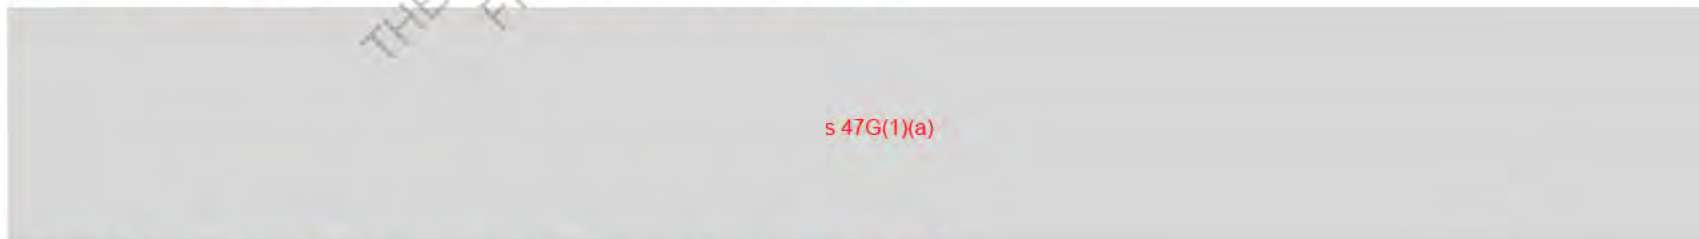

1. Geotime desktop single user deployment (as used during evaluation)

2. Geotime desktop concurrent user deployment. (also allows for disconnected use)

3. Geotime Enterprise offline: (Possible future option for enterprise use)

Recommendation: Option 2: Geotime desktop concurrent user deployment.

GeoTime License Server Requirements

Concurrent licenses require a license server. The license server will be hosted on s 47E(d) To use a license, user computers must be able to communicate by HTTP request with the license server.

License Server Requirements:

- 100+ MB free disk space
- 1+ GHz CPU
- 4 GB RAM
- 64-bit Windows OS: 8 (8.1), 10, Server2012 R2, Server 2016
- The License Server Files ZIP package (download link provided in email from Geotime Support)
- Apache Tomcat 9.x
- Oracle Java JRE 1.8 or OpenJDK 1.8 Download the 64-bit package to match your server's OS.

Ideally a common license server would be reused to co-host this application with similar ones for other products.

Analysis & Recommendations

s 37(2)(b)

While

the analysis components of this tool are duplicative in some form with many other tools in AFP, this is not the main concern. AFP will always have duplicative systems of insight as we find better tools that give AFP an edge.

s 37(2)(b)

s 37(2)(b)

By directing the tool to the s 37(2)(b) we reduce the risk of exposing AFP

s 37(2)(b)

It is recommended that a Technology Acquisition number be issued to permit the procurement of Geotime Desktop (concurrent use licences).
